## DETAILED ACTION

### ***Request for Continued Examination***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.
2. Amendment received January 4, 2006 has been entered into record. *Claims 1-4* remain pending.

### ***Response to Arguments***

3. The Applicants' arguments and amendments filed on January 4, 2006 have been fully considered and are persuasive.

### ***Allowable Subject Matter***

4. *Claims 1-4* are allowed. The claims indicated include limitations that the prior arts of record do not appear to teach or render obvious, hence they are allowed.
5. The following is an examiner's statement of reasons for allowance:  
  
As presented in the previous office action, Hunt reference (US006539422) discloses a *communication environment that allows the ADC device platforms (i.e. production units),*

*which may operate under different protocols from each others as well as the remote computing system, to communicate with the remote computing system (i.e. remote network) by translating and encoding the communication protocols of the ADC device platforms to the standardized SNMP protocol used by the remote computing system.*

However, the prior arts of record fail to teach or suggest individually or in combination as stated in the independent claims for *"decoding said first single data stream at the remote network into said discrete data streams, wherein each said discrete data stream is in a format particular to an individual production device", "formulating a plurality of instructions responsive to said analysis and arranged as a discrete remote engineering instruction set corresponding to each of said at least one target production device, each of said discrete remote engineering instruction sets comprising configurational and operational data relating to a corresponding one of said at least one target production device",* and in combination with other limitations as set forth in the independent claims. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Conclusion**

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas Duong whose telephone number is 571/272-3911. The examiner can normally be reached on M-F 7:30AM - 4:00PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jason D. Cardone can be reached on 571/272-3933. The fax phone numbers for the organization where
